*As an Orthodox Muslim, Zohra has faced many challenges. Her personal journey began at the age of 6, when she came to America from Afghanistan. Her parents could barely speak English when they arrived, and toiled in low-paying jobs just to make ends meet. Despite the circumstances and environment that surrounded Zohra, she strived to achieve success, no matter what the sacrifice! Since that young age, she has been exposed to intolerance and bigotry, initially when living in New York City; then moving to the suburbs of Virginia; to high school in California; and finally residing in a seemingly bucolic Mid-western city in Indiana.*

*Zohra passionately strives to educate others about diversity, using humor and personal experiences, that will leave her audiences transformed, inspired, and motivated. Her appearances promote positive dialogue, with the intended result of fostering tolerance toward people of all races, religions and backgrounds.*
