# #WagingPeace: The Muslim Refugee Crisis

A LECTURE PROGRAM BY JIM KEADY

In the same way that soldiers in the U.S. Armed Forces gear up and wage war, so must social justice warriors gear up and wage peace. In *#WagingPeace*, Jim Keady shares his experience of going to Greece to help with the Muslim refugee crisis. In the aftermath of the Paris attacks, Keady observed with great concern as the xenophobic/Islamophobic rhetoric ratcheted up to a fever pitch. He watched as average citizens and Presidential candidates raged about the evils of Islam and their belief that all

Muslims want to kill us. As the rhetoric pivoted hard toward Muslim refugees they were suddenly being depicted as the enemy!

That is when he felt he had to go to Greece to help any way he could. In this program, Keady challenges each of us to search for the humanity in those we fear and perceive as "other." You will have a front row seat as Jim takes you to the front lines highlighted by heartbreaking photos and clear direction on how everyday citizens can help.
